Subject: Comments to be added for the Uranium PEA

Below is another Comment from Richard Demming that should be included in the file of comments for the Uranium PEA.

Please make sure Melissa send you the comments so you can get them to Wayne Tolbert. Also we need to add the Richard Demming comment:

1) All references to aircraft impact as shown on page 4-1, last paragraph, last sentence. This suggestion is made after the 9/11 attack. Replace references with external events.

Also here is a comment from me:

Table 2.2, page 2-5 contradicts with page 2-11, section 2.3.6. Please correct the Table to reflect the information in section 2.3.6, which is consistent with Appendix A.

Thanks
